PROCESSING AND
MANAGEMENT

CONFERENCE ORGANIZERS INSTITUTES

The International Conference on Integrated Information is supported by the following Institutes:

Emerald Group Publishing Limited
Technological educational Institute of Athens, Greece
University of Peloponnese, Greece
National And Kapodistrian University of Athens, Greece
Mednet Hellas, The Greek Medical Network
2nd AMICUS Workshop

To learn more about I-DAS, including the Book Series, please visit the webpage

CONTENTS

PREFACE: Proceedings of the International Conference on Integrated Information (IC-INFO 2011)	1
Georgios A. Giannakopoulos, Damianos P. Sakas	
Conference Details	3
Keynote Speaker	5
SYMPOSIUM ON INFORMATION AND KNOWLEDGE MANAGEMENT	6
Prof. Christos Skourlas	
Towards the Preservation and Availability of Historical Books and Manuscripts: A Case Study	8
Eleni Galiotou	
An Extensive Experimental Study on the Cluster-based Reference set Reduction for Speeding-up the k-nn Classifier	12
Stefanos Ougiaroglou, Georgios Evangelidis and Dimitris A. Dervos	
Exploiting the Search Culture Modulated by the Documentation Retrieval Applications	16
Nikitas N. Karanikolas and Christos Skourlas	
Information and Knowledge Organization: The Case of the TEI of Athens	22
Anastasios Tsolakidis, Manolis Chalaris and Ioannis Chalaris	
Providing Access to Students with Disabilities and Learning Difficulties in Higher Education through a Secure Wireless framework	26
Catherine Marinagi and Christos Skourlas	
Improving Query Efficiency in High Dimensional Point Indexes	30
Evangelos Outsios and Georgios Evangelidis	
Text Segmentation Using Named Entity Recognition and co-Reference Resolution in Greek Texts	34
Pavlina Fragkou	
KINISIS, a Graphical XQuery Language	42
Euclid Keramopoulos, Achilleas Pliakas, Konstantinos Tsekos and Ignatios Deligiannis	
Dimensionality Curse, Concentration Phenomenon and the KDB-tree	46
Nikolaos Kouiroukidis and Georgios Evangelidi	

Applying Balanced Scorecard Strategic Management in Higher Education	50
Manolis Chalaris, Anastasios Tsolakidis and Ioannis Chalaris	
A Web Portal Model for NGOs' Knowledge Management	54
Zuhal Tanrikulu	
The Digital Archives System and Application Optimized for the Tradition Knowledge Archives	58
Jeon Hong. Chan, In Deok. Hwang, Jae Hak. Park, Hyeok. Sim, U won. Gwon and Soon Cheol. Park	
A Semi-automatic Emerging Technology Trend Classifier Using SCOPUS and PATSTAT	62
Seonho Kim, Woondong Yeo, Byong-Youl Coh, Waqas Rasheed, Jaewoo Kang	
Presenting a Framework for Knowledge Management within a Web Enabled Living Lab	66
Lizette de Jager and Albertus AK Buitendag and Potjie (JS) van der Walt	
4TH SYMPOSIUM ON BUSINESS AND MANAGEMENT AND DYNAMIC SIMULATION MODELS SUPPORTING MANAGEMENT STRATEGIES	71
Dr. Damianos Sakas	
New Political Communication Practices: No Budget Events Management. The New Challenge	73
Evangelia N. Markaki, Damianios P. Sakas and Theodore Chadjipantelis	
Free Software – Open Source Software. A Powerful Tool for Developing Creativity in the Hands of the Student	78
Nasiopoulos K. Dimitrios, Damianos P. Sakas, Konstantinos Masselos	
Open Source Web Applications. How it Spread Through the Internet and their Contribution to Education.	82
Nasiopoulos K. Dimitrios, Damianos P. Sakas, Konstantinos Masselos	
Culture in Modern Times in the Frame of Luhmann's System Theory	85
Anastasia J. Chournazidis	
Managing Scientific Journals: A Cultural Viewpoint	87
Marina C. Terzi, Damianos P. Sakas, and Ioannis Seimenis	
A Conceptual Framework for Analyzing Knowledge-based Entrepreneurship	92
Nikos S. Kanellos	

SESSION ON INFORMATION HISTORY: PERSPECTIVES, METHODS AND CURRENT TOPICS	96
Prof. Laszlo Karvalics	
Emerging Research Fields in Information History	98
Laszlo Z. Karvalics	
Information Management through Elementary Data Clusters: New Observations on Pridianum-Type Roman Statistical Documents	102
Gergő Gellérfi	
Information and Secrecy on the Silk Road. Methods of Encryption of Legal Documents in Inner Asia (3th-4th century)	106
Szabolcs Felföldi	
The Role of Information and Disinformation in the Establishment of the Mongolian Empire: A Re-examination of the 13th century Mongolian History from the Viewpoint of Information History	110
Márton Gergő Vér	
Early Warning Systems and the Hospitallers in the Eastern Mediterranean	114
Zsolt Hunyadi	
Information Management as Establishment Dutch Navigational Knowledge on Japan, 1608-1641	118
Gabor Szommer	
Files Everywhere - Register and Training of Men for Military and Civil Purpose in Prussia in the early 18th century	123
Marton Holczer	
SYMPOSIUM ON INTEGRATED INFORMATION: THEORY, POLICIES, TOOLS	126
Prof. Georgios Giannakopoulos	
Approaching Information as an Integrated Field: Educating Information Professionals	128
Georgios Giannakopoulos, Daphne Kyriaki Manesi and Stryidon Zervos	
Special Libraries as Knowledge Management Centers	132
Eva Semertzaki	
Digital Libraries' Developers and their Suitability: A Case Study	136
Maria Monopoli	

A Preliminary Study for the Creation of a Greek Citation index in the Humanities and the Social Sciences (GCI – H&SS)	140
Daphne Kyriaki-Manessi and Evi Sachini	
Archiving as an Information Science. Evidence from a Survey Carried out on a Sample of Greek Students	144
Georgios Giannakopoulos and Ioannis Koumantakis	
Transition Process of E-records Management and Archiving System in Universities: Ankara University	147
S. Özlem Bayram and Fahrettin Ozdemirci	
Government Information: Access and Greece's Efforts for Access	150
Aikaterini Yiannoukakou	
School Archives and their Potentials in Teaching: Aspects of Greek Reality	156
Sonia Geladaki and Panagiota Papadimitriou	
Research on School Libraries in Greece and Suggestions on its Further Development	160
Georgios D. Bikos	
Building Digital Collections for Archeological Sites: Metadata Requirements and CIDOC CRM Extension	164
Georgios S. Gkrous and Mara Nikolaidou	
Museological Claims to Autonomous Knowledge: Rethinking the Conceptual Mode of Display and its Claims to Knowledge	169
Assimina Kaniari and Georgios Giannakopoulos	
Use of Library Loan Records for Book Recommendation	172
Keita Tsuji, Erika Kuroo, Sho Sato, Ui Ikeuchi, Atsushi Ikeuchi, Fuyuki Yoshikane and Hiroshi Itsumura	
Developing a National Database on Librarianship and Information Science. The Case of E-VIVA, the Hellenic Fulltext Database	176
Filippos Ch. Tsimpoglou, Vasiliki V. Koukounidou and Eleni K. Sakka

Preface: Proceedings of the International Conference on Integrated Information (IC-ININFO 2011)

GEORGIOS A. GIANNAKOPOULOS

Department of Library Science and Information Systems, Technological Educational Institute of Athens, Aghiou Spyridonos, Egaleo, 12210, Greece

DAMIANOS P. SAKAS

Department of Computer and Technology Science, University of Peloponnese, Praxitelous 89-91, Piraeus, 18532, Greece

Aims and Scope of the Conference

The International Conference on Integrated Information 2011 took place in Kos Island, Greece, between September, 29 and October, 3, 2011. IC-ININFO is an international interdisciplinary conference covering research and development in the field of information management and integration.

The conference aims at creating a forum for further discussion for an Integrated Information Field incorporating a series of issues and/or related organizations that manage information in their everyday operations. Therefore, the call for papers is addressed to scholars and/ or professionals of the fields of Library and Archives Science (including digital libraries and electronic archives), Museum and Gallery Studies, Information Science, Documentation, Information Management, Records Management, Knowledge Management, Data management and Copyright experts the latter with an emphasis on Electronic Publications. Furthermore, papers focusing on issues of Cultural Heritage Management and Conservation Management are also be welcomed along with papers regarding the Management of Nonprofit Organizations such as libraries, archives and museums.

One of the primary objectives of the IC-ININFO will be the investigation of information-based managerial change in organizations. Driven by the fast-paced advances in the Information field, this change is characterized in terms of its impact on organizations that manage information in their everyday operations.

Grouping emerging technologies in the Information field together in a close examination of practices, problems and trends, IC-ININFO and its emphases on integration and management will present the state of the art in the field. Addressed jointly to the academic and practitioner, it will provide a forum for a number of perspectives based on either theoretical analyses or empirical case studies that will foster dialogue and exchange of ideas.

Topics of general Interest

Library Science, Archives Science, Museum and Gallery Studies, Information Science, Documentation, Digital Libraries, Electronic Archives, Information Management, Records / Document Management, Knowledge Management, Data Management, Copyright, Electronic Publications, Cultural Heritage Management, Conservation Management, Management of Nonprofit Organizations, History of Information, History of Collections, Health Information

Symposia

The Conference offered a number of sessions under its patronage, providing a concise overview of the most current issues and hands-on experience in information-related fields.

- Symposium on Integrated information: Theory, Policies, Tools
- 4th Symposium on Business and Management and Dynamic Simulation Models supporting management strategies

- Session on Open Access Repositories: Self-archiving, Metadata, Content policies, Usage
- Session on Evidence-Based Information in Clinical Practice
- Session on Business Management and Communication Strategies supporting Decision Making Process in Tourism Sector
- Session on Electronic Publishing: A Developing Landscape
- Session on Information and Knowledge Management
- Session on Information Content Preservation as Outcome of Conservation of Cultural Heritage: Ethics, Methodology and Tools
- Session on Advances Information for Strategic Management
- Session on Information History: Perspectives, Methods and Current Topics
- Session on Divergence and Convergence: Information Work in Digital Cultural Memory Institutions
- Session on Contemporary issues in Management: Organisational Behaviour, Information Technology, Education & Hospital leadership.

The wide range of aspects that the sessions covered, highlighted future trends in the Information Science.

Paper Peer Review

More than 300 papers had been submitted for consideration in IC-ININFO 2011. From them, 91 were selected for presentation, after peer review in a double blind review process. The accepted papers were presented at IC-ININFO 2011.

Thanks

We would like to thank all members that participated in any way in the IC-ININFO 2011 Conference and especially:

- The famous publishing house Emerald for its communication sponsorship.
- The co-organizing Universities and Institutes for their support and development of a high-quality Conference scientific level and profile.
- The members of the Scientific Committee that honored the Conference with their presence and provided a significant contribution to the review of papers as well as for their indications for the improvement of the Conference.
- All members of the Organizing Committee for their help, support and spirit participation before, during and after the Conference.
- The Session Organizers for their willing to organize sessions of high importance and for their editorial work, contributing in the development of valued services to the Conference.
- PhDC Marina Terzi for her excellent editorial work, contributing in the production of the Conference proceedings.

CONFERENCE DETAILS

Chairs

Georgios A. Giannakopoulos, Technological Educational Institute of Athens, Greece
Damianos P. Sakas, University of Peloponnese, Greece

Co-Chairs

Daphne Kyriaki – Manesi, Technological Educational Institute of Athens, Greece
Dimitrios Vlachos, University of Peloponnese, Greece

Scientific Committee

Amanda Spink, Queensland University of Technology
Andreas Bagias, European Court
Andreas Rauber, Vienna University of Technology
Astrid van Wesenbeeck, SPARC Europe
Christine Urquhart, Aberystwyth University
Christos Schizas, University of Cyprus
Christos Skourlas, Technological Educational Institute of Athens
Claire Farago, University of Colorado at Boulder
Claus-Peter Klas, FernUniversität in Hagen
Costas Vassilakis, University of Peloponnese,
Dimitris Dervos, Technological Educational Institute of Thessaloniki
Eelco Ferwerda, OAPEN
Elena Garcia Barriocanal, University of Alcalá
Emmanuel Garoufallou, Technological Educational Institute of Thessaloniki
Filippos Tsimpoglou, University of Cyprus
Fillia Makedon, University of Texas at Arlington
George Korres, University of Newcastle
Georgios Evangelidis, University of Macedonia
Georgios Panagiaris, Technological Educational Institute of Athens
Johan Oomen, Netherlands Institute for Sound and Vision
José Aldana, University of Malaga
Konstantinos Masselos, University of Peloponnese
Luciana Duranti, The University of British Columbia
Markos N. Dendrinis, Technological Institute of Athens
Milena Dobрева, University of Strathclyde
Prodromos Tsiavos, London School of Economics and Political Science
Sándor Darányi, University of Borås
Sarantos Kapidakis, Ionian University
Sirje Virkus, Tallinn University
Spiros Zervos, Technological Educational Institute of Athens
Susan Myburgh, University of South Australia
Theodoros Pitsios, University of Athens, Faculty of Medicine

Organizing Committee

Alexandros Koulouris (Chair), Technological Educational Institute of Athens
Christos Christopoulos, SCEV Scientific Events Ltd
Marina Terzi, University of the Aegean, Greece
Evangelia Markaki, Aristotle University of Thessaloniki

Assimina Kaniari, Athens School of Fine Arts
Evangelia Lappa, General Hospital Attikis K.A.T.
Dimitris Kouis, Greek Ministry of Education, Lifelong Learning and Religious Affairs
Dionysis Kokkinos, National Technical University of Athens

KEYNOTE SPEAKER

Professor Amanda Spink

Professor Amanda Spink has published over 340 scholarly journal articles, refereed conference papers and book chapters, and 6 books. Many of her journal articles are published in the Journal of the American Society for Information Science and Technology, Information Processing and Management, and the Journal of Documentation. She is Editor of the Emerald journal Aslib Proceedings. Amanda's research has been published at many conferences including ASIST, IEEE ITCC, CAIS, Internet Computing, ACM SIGIR, and ISIC Conferences. Her recent books include Information Behavior: An Evolutionary Instinct and Web Search: Multidisciplinary Perspectives, both published by Springer. Amanda's research focuses on theoretical and empirical studies of information behavior, including the evolutionary and developmental foundations. The National Science Foundation, the American Library Association, Andrew R. Mellon Foundation, Amazon.com, Vivisimo. Com, Infospace.com, NEC, IBM, Excite.com, AlltheWeb.com, AltaVista.com, FAST, and Lockheed Martin have sponsored her research. In 2008 Professor Spink had the second highest H-index citation score in her field from 1998 to 2008 [Norris, M. (2008)]. Ranking Fellow Scholars and their H-Index: Preliminary Survey Results. Loughborough University, Dept of Information Science Report].

Preliminary Results on a Printed vs Electronic Text books Assessment through Questionnaire

Dimitrios A. Kouis^{†, ‡} and Kanella Pouli[‡]

[†] Adjunct Lecturer, Technological Institute of Athens. Department of Librarianship and Information Systems, Ag. Spyridonos and Pallikaridi Str., Aegaleo, 122 43, Greece.

kanella (at) gmail.com

Abstract: *This paper presents the initial results of a survey that took place among higher education students in Greece⁸⁴. The aim of the survey was to identify and analyze the attitude, and probable acceptance, of electronic textbooks as well as the transition from printed to electronic textbooks used by the Greek Universities and Technological Education Institutes. Although e-books have turned out to be the mainstream delivery method for the majority of publishers, the printed vs electronic academic textbook debate has become more often nowadays. The complexity of an e-book content as well as the intensity needed for reading are two of the most important reasons why students seem reluctant towards this transition.*

Keywords: *e-book, electronic text book, academic, printed vs electronic.*

I. INTRODUCTION

Recent advances both in the field of e-book readers and techniques/standards of e-book containment files (e.g. version 3 of EPUB format⁸⁵) may speed up the transition from printed to electronic academic textbooks.

Before focusing on the transition, it is necessary to define the starting and ending point of this event. While printed books are self defined and no further elaboration on details is needed, an e-book definition is necessary. In this context, e-books are electronic books that can be read on a portable device (such as e-book readers or mobile phones) or on a computer screen. Initially e-books were just PDF files or a set of HTML pages, referred as the digital version of a printed book. Nowadays the e-book abilities have evolved, including interactive elements, such as sound, video, animation,

simulations, live experiments etc. Also, they have inherited all the attributes offered by the Internet for information organization, such as links, online dictionaries, real time cross reference with other sources etc. It has become clear that the distance between “interactive” e-books and digitized books is the same as the distance between the latter and printed books. In this direction electronic textbooks are closer to the second phase of e-book evolution rather than simple PDF files. Moreover, textbooks either printed or electronic should meet students’ requirements concerning annotation, fast browsing and smart indexing. It is obvious that e-books are superior compared to printed books in these areas, especially concerning collaborative annotation, which results in better learning results as Mayer, et al (1995) indicate.

II. SIMILAR RESEARCHES

Many surveys have been conducted by academic and public libraries, institutions and publishers in order to estimate the attitude of specific groups of users (librarians, academic staff, students, etc.) towards e-books and the advantages and disadvantages of both types of books (printed and electronic) as pointed out by Renner (2007), Rowlands et al. (2007). These studies show that although printed books may not cease to exist, users have become accustomed to e-books and in some cases they prefer them. This has become apparent from their sales which surpass those of printed books (Gabbatt, 2011).

III. THE SURVEY

A. Project EUFOXUS⁸⁶

EUFOXUS is the implementation of an innovative service for higher education students. It provides them with the ability to get fast printed textbooks. Students are able to login into a web-based system and fill in their choices of textbooks. They have access to books details (including an indicative chapter in digital form), as well as to professors’ recommendations on textbooks per study program course. After the order submission, students are eligible to pick up their textbooks from specific delivery points or via post. Certified publishers

⁸⁴ The survey was conducted by the Greek Research & Technology Network SA on behalf of the Greek Ministry of Education Lifelong Learning and Religious Affairs, in the context of Eudoxus, an Electronic Service for the Integrated Management of Academic Books and Readings (<http://www.eudoxus.gr>), funded by EU through the Digital Plan Programme (<http://digitalplan.gov.gr>).

⁸⁵ International Digital Publishing Forum-IDPF, EPUB3 (<http://idpf.org/epub/30>)

⁸⁶ Eudoxus of Cnidus, was a Greek astronomer, mathematician, scholar and Plato student.

are responsible for these delivery points and they must retain a book stock in order to satisfy student demands. Table 1 depicts the EUDOXUS service operation data for 2010-2011.

	Numbers
Institutes / departments participating	44 / 488
Registered students	>280.000
Num of delivered books	> 3,2 millions
Publishers participating	> 1000
Printed book titles (in greek)	> 31.700
Delivery points	> 900
E-books accessed (through web only, english content, major publishers collections, e.g. Elsevier, Springer etc.)	> 11.000

Table 1. EUDOXUS service in numbers

More than 280.000 students obtained their printed textbooks from EUDOXUS. The satisfaction rate was more than 80% according to the survey presented in this paper. Nevertheless, the technological breakthroughs in the area of e-books and e-book readers, like e-ink supporting color representation, or devices with touch screen technology, bring the dominance of e-books closer. In this sense it is crucial to identify the students' attitude towards this change and make a step by step plan to achieve a smooth transition to the e-book era.

B. Survey details

It is widely accepted that during a survey the followed sampling strategy has a direct effect on the results' quality. The selected method is usually determined by factors such as availability of data, time and budget limits.

During the sampling an attempt was made to ensure that there would be adequate representation of students from all institutes, based on their share in the total population.

The total number of students, that survey researchers attempted to call, was 5432, while the number of students that responded and took part in the survey was 2120 (39%). The results are presented below.

C. Preliminary results

The first and most important question was about students' preference of type of textbooks: printed or e-books. The result, as anticipated, was in favor of printed books (see figure next page).

More than 81% of the students answered that they prefer printed textbooks and almost

15% answered that they prefer e-books. Although, this result shows that the majority of students prefer printed books, it is quite encouraging that there is a small percentage of students which have already accepted e-books, even though they do not really have any experience with "academic e-textbooks".

Figure 1. Ebook vs Printed (all answers)

The figure below shows how the type of a student's institute affects the e-book vs printed results. TEIs offer more technological oriented studies, while Universities include study programs like law, literature, history etc.

Figure 2. Ebook vs Printed (by institute type)

As expected 85% of University students favor printed books, while the percentage for TEI students is 75%. This result was expected due to the fact that TEIs are technologically oriented and therefore their students are more open to new technology applications (like e-books), while University students, a significant part of whom study humanities, classical and social sciences, prefer the traditional form of books.

Fig. 3 and Fig. 4, on the other hand, depict how results differentiate according to the scientific category of either the Institute (students' answers are grouped by University type) or the department. Only answers from University students have been taken into account. While the differentiation deriving from the Institute scientific category is negligible (only the Agricultural University results deviate), the variations deriving from the department scientific category are statistically significant.

Figure 3. Ebook vs Printed (by institute scientific category)

Figure 4. Ebook vs Printed (by departments' scientific field)

It is clear that Computer Science students are more receptive (28,5%) to e-books, followed by medical students (15,5%). On the contrary the most unreceptive students belong to department categories such as science, law, history & archeology (8,2%, 9,8% and 10,3% respectively).

Although students seem reserved on the e-book option, the majority of them is convinced that total transition will occur in the next three years. The following results depict the answers given to the question "Do you agree with the opinion that all textbooks will be converted to e-books in the next 3 years;" It is obvious, by the graphs below, that despite the general student preference for printed book, the majority of them (62,4%) considers that in the next three years all textbooks will be electronically available. On the contrary, 23,9% of students disagree with this opinion and a 13,63% keeps a neutral attitude.

Again (see Fig. 6) TEIs' students present almost a 4% higher result than that of those who either totally agree or just agree with the transition to e-book era in the next three years.

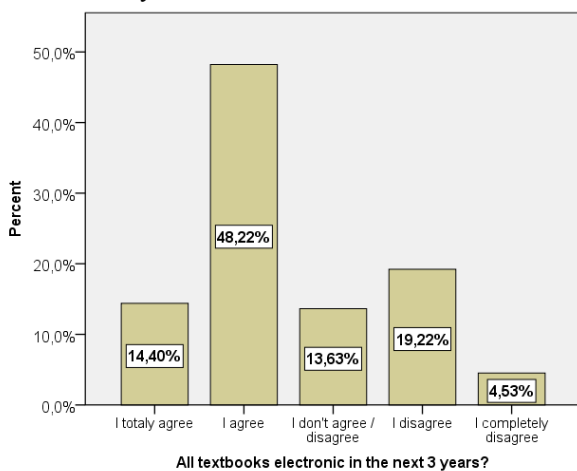

Figure 5. All textbooks electronic in 3 years (all answers)

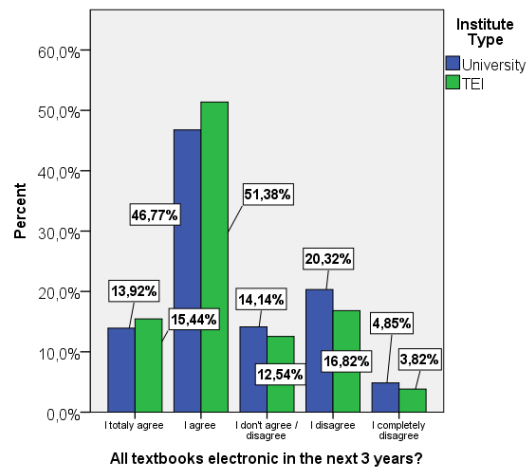

Figure 6. All textbooks electronic in 3 years (by institute type)

Finally once more Fig. 7 and Fig. 8 depict how results differentiate on the basis of the scientific category of either the Institute (students answers are grouped by University) or the department. Only answers from University students have been taken into account. Interesting conclusions derive from analyzing the results of Fig. 8, which is the reason why data from "Department scientific category" and "All textbooks electronic in the next 3 years" cross tabulation are given in Table 2.

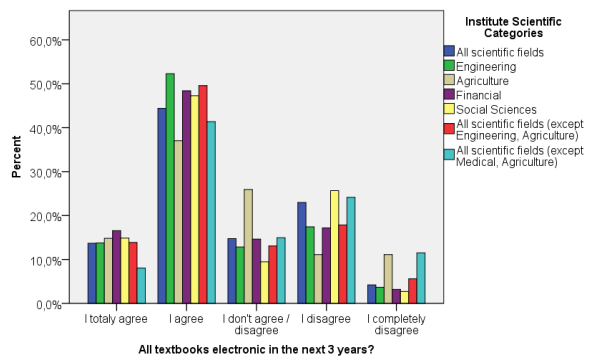

Figure 7. All textbooks electronic in 3 years (by institute scientific category)

Figure 6. All textbooks electronic in 3 years (by departments' scientific category)

	% Dep. Category (DC) or % within all answers (AA)	I totally agree	I agree	I don't agree / disagree	I disagree	I completely disagree	% total
Medical	% DC	17,2%	17,2 %	17,2%	17,2%	17,2 %	17,2%
	% DC	8,8%	7,9%	8,9%	6,8%	5,4%	7,8%
Law	% DC	23,5%	39,2 %	9,8%	19,6%	7,8 %	100,0%
	% AA	10,5%	5,6%	5,0%	7,5%	10,8%	6,9%
Engineering	% DC	13,7%	53,1 %	13,7%	14,7%	4,7 %	100,0%
	% AA	25,4%	31,5%	28,7%	23,3%	27,0%	28,5%
Computer Science	% DC	28,6%	53,1 %	6,1%	10,2%	2,0 %	100,0%
	% AA	12,3%	7,3%	3,0%	3,8%	2,7%	6,6%
History & Archeology	% DC	6,9%	39,7 %	13,8%	36,2%	3,4 %	100,0%
	% AA	3,5%	6,5%	7,9%	15,8%	5,4%	7,8%
Finance	% DC	16,1%	43,9 %	16,1%	20,0%	3,9 %	100,0%
	% AA	21,9%	19,2%	24,8%	23,3%	16,2%	20,9%
Science	% DC	12,7%	49,4 %	13,9%	16,5%	7,6 %	100,0%
	% AA	17,5%	22,0%	21,8%	19,5%	32,4%	21,4%
	% of Total	15,4%	48,0 %	13,6%	18,0%	5,0 %	100,0%

Table 2. "Department scientific category" and "All textbooks electronic in the next 3 years" cross tabulation data

In specific, medical and history & archeology students totally agree or just agree in a percentage that is less than 50% (34,4% and 46,6% accordingly). On the other hand results for Computer Science students reach 81,7% which is almost 17% higher than the average percentage.

D. Discussion of results

Studying these preliminary results on the transition from printed books to e-books , it appears that greek higher education students are reluctant . More than 80% still prefer printed books, while at the same time 63,4% agree or totally agree with the opinion that all textbooks will be available in an electronic form three years from now.

III. CONCLUSIONS

The transition from printed to electronic books (in our case textbooks) is inevitable. The adoption of a new multilevel, multidimensional reading model, the technical abilities of the devices, the environment collaborative options and other parameters concerning

publishers, authors etc. will determine the necessary time for the transition to occur. It is most encouraging that students, not having any experience in electronic textbooks, expect that this new form of knowledge delivery will increase their access options and result in better studies. As far as EUDOXUS is concerned, its next phase is the provision of greek academic textbooks, both open access and under certain copyright limitation, to specific categories of students (e.g. Computer Science and Engineers).
